Professional Summary

AI & Data Science undergraduate with strong foundations in Machine Learning, Deep Learning, Data Analysis, Statistics, and Python. Passionate about solving real-world problems using AI and building scalable data-driven applications. Seeking an AI/ML Engineer or Data Scientist role at Google.

Education

B.Tech (Artificial Intelligence & Data Science), IIT Madras (2022–2026)
CGPA: 9.48/10

Technical Skills

Python, SQL, R, Pandas, NumPy, Scikit-Learn, TensorFlow, PyTorch, XGBoost, OpenCV, Hugging Face Transformers, LangChain, Spark, Google Cloud, FastAPI, Docker, Git, Linux.

Experience

AI/ML Intern – ABC AI Labs (May 2025 – Jul 2025)

- Developed customer segmentation models.
- Improved prediction accuracy by 17% through feature engineering.
- Built Python data pipelines and deployed ML models using FastAPI and Docker.

Projects

1. Customer Churn Prediction (94.1% accuracy using XGBoost).
2. AI Resume Screening System (NLP + LLM).
3. Medical Image Classification (96% accuracy).
4. Retail Sales Forecasting.
5. AI Interview Assistant.

Research

Research Assistant in AI Lab working on Vision Transformers for medical imaging. Published at an IEEE student conference.

Certifications

Google Professional Machine Learning Engineer, Google Data Analytics Professional Certificate, TensorFlow Developer Certificate, Andrew Ng ML & Deep Learning Specializations.

Achievements

Kaggle Competition Expert, Top 3% Kaggle finish, 900+ DSA problems solved, Smart India Hackathon Finalist, Google Solution Challenge Participant.

Leadership

President, AI Club – Organized workshops and hackathons for 400+ students.

Languages

English, Hindi
